

**PROSPECTUS SUPPLEMENT NO. 1 DATED AUGUST 11, 2015**  
**(To Prospectus dated July 20, 2015)**

This is a supplement ("Prospectus Supplement No. 1") to our prospectus, dated July 20, 2015 (the "Prospectus"), relating to (i) shares of common stock and common stock purchase warrants issuable by us upon the exercise of certain of our outstanding unit purchase options and common stock purchase warrants, and (ii) shares of CohBar, Inc. common stock offered from time to time by the Selling Stockholders named in the Prospectus.

This Prospectus Supplement No. 1 is not complete without, and may not be delivered or utilized except in connection with, the Prospectus, including any amendments or supplements thereto.

**Quarterly Report on Form 10-Q for the Quarter Ended June 30, 2015**

On August 11, 2015, we filed with the Securities and Exchange Commission a quarterly report on Form 10-Q for the quarter ended June 30, 2015 (the "Form 10-Q"). The Form 10-Q, as filed (but without the exhibits filed with the Form 10-Q), is set forth below.

The information contained in this Prospectus Supplement No. 1 supplements and supersedes, in relevant part, the information contained in the Prospectus, as amended and supplemented. This Prospectus Supplement No. 1 is incorporated by reference into, and should be read in conjunction with, the Prospectus, as amended and supplemented, and is not complete without, and may not be delivered or utilized except in connection with, the Prospectus, as amended and supplemented.

All references in the Prospectus to "this prospectus" are amended to read "this prospectus (as supplemented and amended)."

**INVESTING IN OUR COMMON STOCK INVOLVES SUBSTANTIAL RISKS. SEE "RISK FACTORS" BEGINNING ON PAGE 7 OF THE PROSPECTUS TO READ ABOUT IMPORTANT FACTORS YOU SHOULD CONSIDER BEFORE PURCHASING OUR COMMON STOCK.**

**NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ADEQUACY OR ACCURACY OF THIS PROSPECTUS SUPPLEMENT NO. 1. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.**

The date of this Prospectus Supplement No. 1 is August 11, 2015

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 1 - Business Organization and Basis of Presentation**

CohBar, Inc. ("CohBar" or the "Company") is a leader in the research and development of mitochondria-based therapeutics ("MBTs"), an emerging class of drugs for the treatment of diseases associated with aging. MBTs originate from the discovery by the Company's founders of a novel group of peptides within the genome of mitochondria, the powerhouses of the cell. The Company's ongoing development of mitochondrial-derived peptides ("MDPs") into MBTs offers the potential to address a broad range of diseases such as type 2 diabetes, cancer, atherosclerosis and neurodegenerative disorders.

The Company's primary activities include conducting MDP research and development of its MBT pipeline, securing intellectual property protection, establishing relationships with Contract Research Organizations ("CROs") and academic institutions, expanding its scientific leadership and staff and raising capital. To date, the Company has not generated any revenues from operations and does not expect to generate any revenues in the near future.

The unaudited interim condensed financial statements of the Company have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission ("SEC"). They do not include all information and footnotes required by GAAP for complete financial statements. Except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2014, included in the Company's Annual Report on Form 10-K, filed with the SEC (the "2014 Form 10-K"). The interim unaudited condensed financial statements should be read in conjunction with those audited financial statements included in the 2014 Form 10-K. In the opinion of management, all adjustments considered necessary for fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three and six month periods ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015, or any other period. All amounts are presented in U.S. Dollars.

**Note 2 - Management's Liquidity Plans**

As of June 30, 2015, the Company had working capital and stockholders' equity of \$11,838,609 and \$11,860,849, respectively. During the six months ended June 30, 2015, the Company incurred a net loss of \$1,648,795. The Company has not generated any revenues, has incurred net losses since inception and does not expect to generate revenues in the near term.

In January 2015, the Company completed its Initial Public Offering ("IPO") on the TSX Venture Exchange. The Company sold 11,250,000 units at a price of \$1.00 per unit, providing gross proceeds of \$11,250,000. Concurrently with the IPO, the Company completed a previously-subscribed private placement of an additional 2,700,000 units for gross proceeds of \$2,700,000, resulting in total gross proceeds of \$13,950,000.

With the cash on hand as of June 30, 2015, the Company believes that it has sufficient cash to meet its working capital needs and operating expenses into the early part of 2017. However, if unanticipated difficulties arise the Company may be required to raise additional capital to support its operations or curtail its research and development activities until such time as additional capital becomes available. There is no assurance that additional financing will be available when needed or that management will be able to obtain such financing on terms acceptable to the Company and that the Company will become profitable and generate positive operating cash flow in the future.

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3 - Summary of Significant Accounting Policies**

***Use of Estimates***

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at dates of the financial statements and the reported amounts of revenue and expenses during the periods. Actual results could differ from these estimates. The Company's significant estimates and assumptions include the fair value of the Company's stock, stock-based compensation, debt discount and the valuation allowance relating to the Company's deferred tax assets.

***Concentrations of Credit Risk***

The Company maintains deposits in a financial institution which is insured by the Federal Deposit Insurance Corporation ("FDIC"). At various times, the Company has deposits in this financial institution in excess of the amount insured by the FDIC.

***Investments***

Investments consist of U.S Treasury Bills and Certificates of Deposit. The Company determines the appropriate balance sheet classification of its investments at the time of purchase and evaluates the classification at each balance sheet date.

The Company had \$4,745,714 of short-term investments at June 30, 2015.

***Deferred Offering Costs***

The Company classifies amounts related to the IPO not closed as of the balance sheet date as Deferred Offering Costs. During the six months ended June 30, 2015, the Company reclassified Deferred Offering Costs in the amount of \$749,386 to Additional Paid-in-Capital as an offset to its IPO.

During the six months ended June 30, 2015, the Company incurred \$35,811 of additional offering related costs. These costs were recorded as a reduction in Additional Paid-in-Capital in the accompanying condensed balance sheets.

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3 - Summary of Significant Accounting Policies (continued)**

***Fair Value of Financial Instruments***

The Company measures the fair value of financial assets and liabilities based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company utilizes three levels of inputs that may be used to measure fair value:

- Level 1 - quoted prices in active markets for identical assets or liabilities
- Level 2 - quoted prices for similar assets and liabilities in active markets or inputs that are observable
- Level 3 - inputs that are unobservable (for example, cash flow modeling inputs based on assumptions)

The carrying amounts of cash, investments, accounts payable, accrued liabilities and debt approximate fair value due to the short-term nature of these instruments.

***Common Stock Purchase Warrants***

The Company classifies as equity any contracts that (i) require physical settlement or net-share settlement or (ii) provides the Company with a choice of net-cash settlement or settlement in its own shares (physical settlement or net-share settlement) providing that such contracts are indexed to the Company's own stock. The Company classifies as assets or liabilities any contracts that (i) require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the Company's control), or (ii) gives the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement). The Company assesses classification of its common stock purchase warrants and other free standing derivatives at each reporting date to determine whether a change in classification between assets and liabilities is required. The Company's free standing derivatives consist of warrants to purchase common stock that were issued in connection with its notes payable, warrants to purchase common stock that were issued in connection with the Company's IPO and concurrent private placement and compensation options issued to the agents in the IPO exercisable for shares of common stock and common stock purchase warrants. The Company evaluated these securities to assess their proper classification using the applicable criteria enumerated under U.S. GAAP and determined that they meet the criteria for equity classification in the condensed balance sheet as of June 30, 2015 and December 31, 2014.

***Share-Based Payment***

The Company accounts for share-based payments using the fair value method. For employees and directors, the fair value of the award is measured, as discussed below, on the grant date. For non-employees, fair value is generally valued based on the fair value of the services provided or the fair value of the equity instruments on the measurement date, whichever is more readily determinable and re-measured on each financial reporting dates until the service is complete. The Company has granted stock options at exercise prices no less than the fair market value as determined by the board of directors, with input from management.

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3 - Summary of Significant Accounting Policies (continued)**

***Share-Based Payment (continued)***

The weighted-average fair value of options and warrants has been estimated on the date of grant using the Black-Scholes pricing model. The fair value of each instrument is estimated on the date of grant utilizing certain assumptions for a risk free interest rate, volatility and expected remaining lives of the awards. Since the Company has a limited history of being publicly traded, the fair value of stock-based payment awards issued was estimated using a volatility derived from an index of comparable entities. The assumptions used in calculating the fair value of share-based payment awards represent management's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. As a result, if factors change and the Company uses different assumptions, the Company's stock-based compensation expense could be materially different in the future. In addition, the Company is required to estimate the expected forfeiture rate and only recognize expense for those shares expected to vest. In estimating the Company's forfeiture rate, the Company analyzed its historical forfeiture rate, the remaining lives of unvested options, and the number of vested options as a percentage of total options outstanding. If the Company's actual forfeiture rate is materially different from its estimate, or if the Company reevaluates the forfeiture rate in the future, the stock-based compensation expense could be significantly different from what the Company has recorded in the current period.

The weighted-average Black-Scholes assumptions are as follows:

	<b>For The Three And Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
Expected life	4 years	6 years
Risk free interest rate	1.32%	2.67%
Expected volatility	80%	80%
Expected dividend yield	0%	0%

As of June 30, 2015, total unrecognized stock option compensation expense is \$771,236, which will be recognized as those options vest over a period of approximately four years. The amount of future stock option compensation expense could be affected by any future option grants or by any option holders leaving the Company before their grants are fully vested.

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 3 - Summary of Significant Accounting Policies (continued)**

***Net Loss Per Share of Common Stock***

Basic net loss per share is computed by dividing net loss attributable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net earnings per share reflects the potential dilution that could occur if securities or other instruments to issue common stock were exercised or converted into common stock. Potentially dilutive securities are excluded from the computation of diluted net loss per share as their inclusion would be anti-dilutive and consist of the following:

	<b>June 30, 2015</b>	<b>June 30,* 2014</b>
Options	3,340,959	1,225,219
Warrants	7,936,391	833,617
Preferred Stock Series B	-	2,600,000
Totals	<u>11,277,350</u>	<u>4,658,836</u>

\* June 30, 2014 does not include shares and common stock purchase warrants issuable under Put Agreements contingent upon the completion of the IPO.

***Recent Accounting Pronouncements***

Recent accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's financial statements upon adoption.

**Note 4 - Accrued Expenses**

Accrued expenses consist of:

	<b>As of June 30, 2015</b>	<b>As of December 31, 2014</b>
Lab services	\$ 44,329	\$ 64,768
Professional fees	36,820	173,829
Consultant fees	4,000	52,000
Interest	14,315	10,804
Expense reimbursement	1,831	4,000
Total accrued expenses	<u>\$ 101,295</u>	<u>\$ 305,401</u>

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 5 - Commitments and Contingencies**

*Litigations, Claims and Assessments*

The Company may be involved in legal proceedings, claims and assessments arising in the ordinary course of business. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. There are no such matters that are included in the condensed financial statements as of June 30, 2015.

*Operating Lease*

In February 2015, the Company entered into a lease agreement for a new and expanded laboratory. The laboratory space is leased on a month-to-month basis and is part of a shared facility in Menlo Park, California.

Rent expense was \$26,727 and \$5,400 for the three months ended June 30, 2015 and 2014, respectively. Rent expense was \$45,742 and \$10,800 for the six months ended June 30, 2015 and 2014, respectively. The Company terminated the lease for its former lab space effective March 31, 2015.

**Note 6 - Stockholders' Equity**

*Authorized Capital*

In January 2015, the Company completed its IPO on the TSX Venture Exchange. The Company sold 11,250,000 units at a price of \$1.00 per unit, providing gross proceeds of \$11,250,000. Concurrently with the IPO, the Company completed a previously-subscribed private placement of an additional 2,700,000 units for gross proceeds of \$2,700,000, resulting in total gross proceeds of \$13,950,000. After deducting the offering expenses, the Company received net proceeds of \$12,953,484. All units consist of one share of CohBar's common stock and one-half of one common stock purchase warrant. In the aggregate, a total of 13,950,000 shares of common stock and 6,975,000 warrants to purchase common stock were issued in connection with the IPO and concurrent private placement. Each whole warrant is exercisable to acquire one share of CohBar's common stock at a price of \$2.00 per share at any time up to January 6, 2017, subject to CohBar's right to accelerate the expiration time of the warrants if at any time the volume-weighted average trading price of its common stock is equal to or exceeds \$3.00 per share for twenty (20) consecutive trading days. The Company also issued compensation options to its agent for the IPO exercisable for an aggregate of 786,696 units at a price of \$1.00 per unit at any time prior to July 6, 2016.

In January 2015, the Company amended its Certificate of Incorporation to increase the total number of authorized shares of common stock. Following the amendment, the Company has authorized the issuance and sale of up to 80,000,000 shares of stock, consisting of 75,000,000 shares of common stock having a par value of \$0.001 and 5,000,000 shares of Preferred Stock having a par value of \$0.001 per share. As of June 30, 2015, there were no shares of Preferred Stock outstanding and there were no declared but unpaid dividends or undeclared dividend arrearages on any shares of the Company's capital stock.

**COHBAR, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(unaudited)**

**Note 6 - Stockholders' Equity (continued)**

***Authorized Capital (continued)***

In January 2015, the Company amended and restated the 2011 Equity Incentive Plan (the "2011 Plan"). The Amendment and Restatement increased the aggregate number of shares of its common stock that may be issued pursuant to stock awards under the plan. In accordance with the rules of the TSX Venture Exchange regarding equity incentive plans, the number of shares that can be reserved for issuance under the 2011 Plan is equal to 20% of the Company's common stock outstanding at the completion of the offering. The total number of shares reserved for issuance after the completion of the IPO is 6,453,069.

***Preferred Stock***

Upon the completion of the IPO on January 6, 2015 each outstanding share of Series B Preferred Stock was automatically converted into one share of common stock. The Company converted 5,400,000 shares of Series B Preferred Stock into 5,400,000 shares of its common stock.

***Stock Options***

The Company has one incentive stock plan, the 2011 Plan, and has granted stock options to employees, non-employee directors and consultants from the 2011 Plan. Options granted under the Plan may be Incentive Stock Options or Non-statutory Stock Options, as determined by the Administrator at the time of grant. At June 30, 2015, 3,843,258 shares of the Company's common stock were available for future issuance under the 2011 Plan.

During the year ended December 31, 2014, the Company granted an option to purchase 127,532 shares of common stock which contained performance vesting conditions that include (i) the optionee's continuous service and (ii) completion of the Company's initial public offering pursuant to an effective registration statement under the Securities Act of 1933, as amended. The performance conditions related to the IPO were met during the quarter ended March 31, 2015 and the options were valued. The options had an exercise price of \$0.26, a fair value of \$0.87 and the Company recognized an expense of \$46,119 in the six months ended June 30, 2015.

The Company recorded \$70,691 and \$222,136 of stock based compensation in the three months ended June 30, 2015 and 2014, respectively. The Company recorded \$216,205 and \$222,498 of stock based compensation in the six months ended June 30, 2015 and 2014, respectively.

<b>Totals</b>	<u>3,340,959</u>			<u>1,472,471</u>	

***Agent's Compensation Options***

In connection with the closing of its IPO in January 2015 the Company issued 786,696 compensation options ("Compensation Options") to the agents that took part in the offering. Each Compensation Option is exercisable for a unit consisting of one share of common stock and one-half of one common stock purchase warrant at an exercise price of \$1.00 per unit. The Compensation Options expire on July 6, 2016. Each whole warrant issuable upon exercise of Compensation Options is exercisable to acquire one share of common stock at an exercise price of \$2.00 per share at any time up to January 6, 2017, subject to the Company's right to accelerate the expiration time of the warrants if at any time the volume-weighted average trading price of its common stock is equal to or exceeds \$3.00 per share for twenty (20) consecutive trading days. Because the Compensation Options are considered a cost of the IPO, the resulting value is recognized as both an increase and decrease to the equity section of the accompanying condensed balance sheets. The Compensation Options are not part of the Company's 2011 Plan.

During the six months ended June 30, 2015, a total of 55,548 Compensation Options were exercised for cash proceeds of \$55,548.

**COHBAR, INC.**

**(unaudited)**

**Note 6 - Stockholders' Equity (continued)**

***Warrants***

During the six months ended June 30, 2015, the Company issued 7,002,774 warrants to purchase common stock related to the units sold in the IPO and concurrent private placement and issued on exercise of compensation options. The warrants are exercisable through January 6, 2017 at a price of \$2.00 per share. The warrants are subject to the Company's right to accelerate the expiration time of the warrants if at any time the volume-weighted average trading price of its common stock is equal to or exceeds \$3.00 per share for twenty (20) consecutive trading days.

As of June 30, 2015, the Company has warrants outstanding and exercisable to purchase 7,936,391 shares of common stock. Such warrants have a weighted average exercise price of \$1.80, a weighted average remaining contractual life of 2.3 years and an aggregate intrinsic value of \$721,145.

**Note 7 - Related Party Transactions**

Two of the Company's Directors each provide it consulting services pursuant to agreements that provide for annual compensation of \$42,000. Each agreement provides for an annual service term and can be extended by mutual consent of both parties. The service terms under the agreements will expire in September 2015 and November 2015, respectively. During the three months ended June 30, 2015 and 2014, the Company recognized expenses of \$10,500 and \$8,083 for consulting fees to each Director, respectively. During the six months ended June 30, 2015 and 2014, the Company recognized expenses of \$21,000 and \$11,083 for consulting fees to each Director, respectively. As of June 30, 2015 and December 31, 2014, no amounts were owed to either Director.

**Note 8 - Subsequent Events**

Management has evaluated subsequent events to determine if events or transactions occurring through the date on which the financial statements were issued require adjustment or disclosure in the Company's financial statements.

During July 2015, the Company issued 318,124 stock options to employees and consultants with an exercise price of \$1.00. These stock options are subject to vesting over four years and have a term of ten years.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion and analysis is based upon our financial statements as of the dates and for the periods presented in this section. You should read this discussion and analysis in conjunction with the financial statements and notes thereto found in Part I, Item 1 of this Form 10-Q and our consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K"). All references to the second quarter and first six months of 2015 and 2014 are to the three and the six month periods ended June 30, 2015 and June 30, 2014, respectively. Unless the context otherwise requires, "CohBar," "we," "us" and "our" refer to CohBar, Inc.*

### **Special Note Regarding Forward-Looking Statements**

*This report, including the "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements regarding future events and our future results that are based on our current expectations, estimates, forecasts, and projections about our business, our results of operations, the industry in which we operate and the beliefs and assumptions of our management. Words such as "expect," "anticipate," "target," "goal," "project," "would," "could," "intend," "plan," "believe," "seek" and "estimate," variations of these words, and similar expressions are intended to identify those forward-looking statements. These forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in this report under the section entitled "Risk Factors" in Item 1A of Part I of the 2014 Form 10-K as supplemented or modified in our quarterly reports on Form 10-Q. We undertake no obligation to revise or update publicly any forward-looking statements for any reason, whether as a result of new information, future events or otherwise, except as may be required by law.*

### **Overview**

We are a leader in the research and development of mitochondria-based therapeutics (MBTs), an emerging class of drugs for the treatment of diseases associated with aging. MBTs originate from the discovery by our founders of a novel group of peptides within the genome of mitochondria, the powerhouses of the cell. Our ongoing development of these mitochondrial-derived peptides (MDPs) into MBTs offers the potential to address a broad range of diseases such as type 2 diabetes, cancer, atherosclerosis and neurodegenerative disorders.

Our founders and co-founders are widely considered to be scientific experts and thought leaders at the intersection of cellular and mitochondrial genetics and biology, the biology of aging, metabolism, and drug discovery and development. Their multi-disciplinary expertise and their investigations into age-related diseases has enabled and focused our research efforts on the mitochondrial genome.

MDPs represent a diverse and largely unexplored collection of peptides which we believe has the potential to lead to novel therapeutics for a number of diseases with significant unmet medical needs. We believe that CohBar is a first mover in exploring the mitochondrial genome to identify MDPs with potential to be developed into transformative medicines, and that the depth of our scientific expertise, together with our intellectual property portfolio, will enable us to sustain this competitive advantage. By augmenting our scientific leadership and MDP discoveries with drug discovery and development expertise and capabilities, we believe we can identify and develop MBT candidates that harness cell-signaling mechanisms and unlock the therapeutic potential of this collection of peptides.

Our operations to date have been focused on organizing and staffing our company, business planning, raising capital and research on our MDPs. Our research efforts have focused on discovering and evaluating our MDPs for potential development as MBT drug candidates. We seek to identify and advance research on MDPs with superior potential for yielding an MBT drug candidate, and ultimately a drug, for which we have a strong intellectual property position.

Since our formation in 2007, we have in-licensed key intellectual property from our founders' affiliated academic institutions, developed methods for identifying new MDPs, studied various MDPs in both *in vitro* and *in vivo* models and identified a number of MDPs with potential therapeutic value in the treatment of diabetes, cancer, Alzheimer's disease, atherosclerosis and other diseases. Based on our evaluation of MDPs currently in our research pipeline we are actively engaged in research of four families of MDPs for potential advancement into MBT drug candidate programs.

We are the exclusive licensee from the Regents of the University of California and the Albert Einstein College of Medicine to four issued U.S. patents and four U.S. and international patent applications. Our licensed patents and patent applications are directed to compositions comprising MDPs and MDP analogs and methods of their use in the treatment of indicated diseases. See "Business – Patents and Other Intellectual Property".

In January 2015, we completed our Initial Public Offering ("IPO") on the TSX Venture Exchange. We sold 11,250,000 units in the IPO at a price of \$1.00 per unit, providing gross proceeds of \$11,250,000. Concurrently with the IPO, we also completed a previously-subscribed private placement of an additional 2,700,000 units for gross proceeds of \$2,700,000, resulting in total gross proceeds of \$13,950,000. After deducting the offering expenses, we received net proceeds of \$12,953,484. All units consist of one share of our common stock and one-half of one common stock purchase warrant. In the aggregate, a total of 13,950,000 shares of common stock and 6,975,000 warrants to purchase common stock was issued in the IPO and concurrent private placement. Each whole warrant is exercisable to acquire one share of our common stock at a price of \$2.00 per share at any time up to January 6, 2017, subject to our right to accelerate the expiration time of the warrants if at any time the volume-weighted average trading price of its common stock is equal to or exceeds \$3.00 per share for twenty (20) consecutive trading days. We also issued compensation options to the agents for the IPO exercisable for an aggregate of 786,696 units at a price of \$1.00 per unit at any time prior to July 6, 2016.

Since inception, we have incurred significant operating losses. Our net losses were \$1,648,795 and \$916,978 for the six months ended June 30, 2015 and 2014, respectively. As of June 30, 2015, we had an accumulated deficit of \$6,105,122. We expect to continue to incur significant expenses and operating losses over the next several years. Our net losses may fluctuate significantly from quarter to quarter and from year to year. We anticipate that our expenses will increase significantly as we commence pre-clinical development activities for any of our research peptides, continue research and discovery efforts on our MBTs, expand and protect our intellectual property portfolio, and hire additional development and scientific personnel.

## **Financial Operations Review**

### ***Revenue***

To date, we have not generated any revenue from product sales and do not expect to generate any revenue from the sale of products in the near future. In the future, we will seek to generate revenue from product sales, either directly or under any future licensing, development or similar relationship with a strategic partner.

### ***Research and development expenses***

Research and development expenses consist primarily of costs incurred for our research activities, including our drug discovery efforts, and the development of our product candidates, which include:

- employee-related expenses including salaries, benefits, and stock-based compensation expense;
- expenses incurred under agreements with third parties, including contract research organizations, or CROs, that conduct research and development and pre-clinical activities on our behalf and the cost of consultants;
- the cost of laboratory equipment, supplies and manufacturing MBT test materials; and
- depreciation and other personnel-related costs associated with research and product development.

Depending on factors of capability, cost, efficiency and intellectual property rights we conduct our research programs at our laboratory facility, pursuant to contractual arrangements with CROs or academic institutions. We expense all research and development expenses as incurred. We hired additional lab personnel and scientific staff during the first half of 2015 and anticipate additional hiring during the remainder of the year. We expect the increase in our headcount will enable us to enhance our research and development efforts focused on discovering, evaluating and optimizing our MDPs as potential MBT drug candidates. Accordingly, with our ongoing activities we expect our research and development expenses to increase in the year ending December 31, 2015.

### ***General and administrative expenses***

General and administrative expenses consist primarily of salaries and other related costs, including stock-based compensation, for personnel in executive, finance and administrative functions. Other significant costs include legal fees relating to patent and corporate matters and fees for accounting and consulting services. We anticipate that our general and administrative expenses will increase in the future to support continued research and development activities. These increases will likely include increased costs related to the hiring of additional personnel and fees to outside consultants, lawyers and accountants, among other expenses. Additionally, we anticipate increased costs associated with being a public company including expenses related to services associated with maintaining compliance with exchange listing and Securities and Exchange Commission requirements, insurance and investor relations costs.

### **Results of Operations**

The following table sets forth our results of operations for the periods presented. The period-to-period comparison of financial results is not necessarily indicative of financial results to be achieved in future periods.

	For The Three Months Ended June 30,		Change	
	2015	2014	\$	%
<b>Revenues</b>	\$ -	\$ -	\$ -	-%
<b>Operating expenses:</b>				
Research and development	\$ 447,287	\$ 137,059	\$ 310,228	226%
General and administrative	418,932	523,869	(104,937)	-20%
Total operating expenses	<u>\$ 866,219</u>	<u>\$ 660,928</u>	<u>\$ 205,291</u>	<u>31%</u>

**Comparison of Three Months Ended June 30, 2015 and 2014**

*Research and development* expenses were \$447,287 in the three months ended June 30, 2015 compared to \$137,059 in the prior year period, a \$310,228 increase, or 226%. The \$310,228 increase in research and development expenses was due to a \$143,845 increase in preclinical studies related to our efforts to develop optimized MBT candidates, a \$138,182 increase in wages, benefits and stock based compensation associated with the timing of the hiring of our Chief Scientific Officer and Vice President of Biology, \$44,950 in costs related to our Scientific Advisory Board (“SAB”) meeting held in June 2015 and the \$31,728 increase in rent expense related to our new and expanded lab space. The increase in the research and development expenses in the three months ended June 30, 2015 as compared to the prior year quarter were offset by the \$62,322 decrease in costs associated with research performed under arrangements with the Alzheimer’s Drug Discovery Foundation and the reversal of an accrual in the amount of \$49,500 related to an SAB member’s past due fees which were re-negotiated. We expect research and development expenses to increase in the coming quarters as we continue to build our infrastructure to enhance our efforts on discovering, evaluating and optimizing our MDPs as potential MBT drug candidates.

*General and administrative* expenses were \$418,932 in the three months ended June 30, 2015 compared to \$523,869 in the prior year period, a \$104,937 decrease, or 20%. The \$104,937 decrease in general and administrative expenses was due to a \$220,572 decrease in wages, benefits and stock based compensation as the prior year period included approximately \$51,000 in additional salary expense and \$170,027 in expenses from warrants granted in the prior year quarter, as well as a \$60,000 decrease in outside services as we incurred the costs of recruiting for our Chief Scientific Officer in the prior year quarter. The decreases in general and administrative expense in the current year period as compared to the prior year period were offset by the increase in compliance costs as we incurred the costs associated with being a publicly traded company which we did not incur in the prior year period, a \$42,674 increase in legal fees as we incurred the cost of associated with protecting our intellectual property and a \$34,397 increase in marketing and investor relations costs associated with being a publicly traded company. We expect general and administrative expenses for the year ending December 31, 2015 to be higher in comparison to prior years as we continue to incur the costs associated with being a public company.

	For The Six Months Ended June 30,		Change	
	2015	2014	\$	%
<b>Revenues</b>	\$ -	\$ -	\$ -	-%
<b>Operating expenses:</b>				
Research and development	\$ 710,047	\$ 245,332	\$ 464,715	189%
General and administrative	935,918	668,217	267,701	40%
Total operating expenses	<u>\$ 1,645,965</u>	<u>\$ 913,549</u>	<u>\$ 732,416</u>	<u>80%</u>

### ***Comparison of Six Months Ended June 30, 2015 and 2014***

*Research and development* expenses were \$710,047 in the six months ended June 30, 2015 compared to \$245,332 in the prior year period, a \$464,715 increase, or 189%. The \$464,715 increase in research and development expenses was due to a \$241,645 increase in wages, benefits and stock based compensation associated with the timing of the hiring of our Chief Scientific Officer and Vice President of Biology, a \$168,845 increase in preclinical studies related to our efforts to develop optimized MBT candidates, \$48,700 in costs related to our SAB meeting held in June 2015 and the \$45,343 increase in rent expense related to our new and expanded lab space. The increase in the research and development expenses in the six months ended June 30, 2015 as compared to the prior year period were offset by the \$98,167 decrease in costs associated with research performed under arrangements with the Alzheimer's Drug Discovery Foundation and the reversal of an accrual in the amount of \$49,500 related to an SAB member's past due fees which was re-negotiated.

*General and administrative* expenses were \$935,918 in the six months ended June 30, 2015 compared to \$668,217 in the prior year period, a \$267,701 increase, or 40%. The \$267,701 increase in general and administrative expenses was due to (i) the \$206,358 increase in compliance costs and the \$82,062 increase in marketing and investor relations as we incurred the costs associated with being a publicly traded company which we did not incur in the prior year period and (ii) the \$38,226 increase in legal fees as we incurred the costs associated with protecting our intellectual property. The increases in general and administrative expense in the current year period as compared to the prior year period were offset by a \$58,328 decrease in outside services as we incurred the costs of recruiting for our Chief Scientific Officer in the prior year period and the \$29,160 decrease in wages, benefits and stock based compensation primarily due to lower stock based compensation costs in the current year period.

### **Liquidity and Capital Resources**

As of June 30, 2015 we had \$7,393,314 in cash and cash equivalents and \$4,745,714 in investments. We maintain our cash in a checking and savings account on deposit with a financial institution located in the United States. In February 2015 our Board of Directors adopted an investment policy pursuant to which we maintain a portfolio of short-term highly liquid securities. As of June 30, 2015, our investments consisted of U.S. Treasury Bills and Certificates of Deposit.

In January 2015 we received \$11,250,000 of gross proceeds in our IPO and \$2,700,000 in gross proceeds from our concurrent private placement. With the cash on hand as of June 30, 2015 we believe that we have sufficient cash to meet our working capital needs and operating expenses into the early part of 2017. However, if unanticipated difficulties arise we may be required to raise additional capital to support our operations or curtail our research and development activities until such time as additional capital becomes available. There is no assurance that additional financing will be available when needed or that management will be able to obtain such financing on terms acceptable to us and that we will become profitable and generate positive operating cash flow in the future.

### ***Cash Flows from Operating Activities***

Net cash used in operating activities for the six months ended June 30, 2015 and 2014 was \$1,799,394 and \$506,712, respectively. The cash used in operations of \$1,799,394 for the six months ended June 30, 2015 was primarily due to our reported net loss of \$1,648,795. Cash used in operations of \$506,712 for the six months ended June 30, 2014 was primarily due to our reported net loss of \$916,978 offset by the \$222,498 increase in stock based compensation costs primarily due to the \$170,027 valuation of a warrant granted during the period, the \$102,428 increase in accounts payable due to the timing of receipt of invoices and the \$85,640 decrease in restricted cash associated with the grants from the Alzheimer's Drug Discovery Foundation.

### ***Cash Flows from Investing Activities***

Net cash used in investing activities for the six months ended June 30, 2015 was \$4,975,005. The cash used in investing activities of \$4,975,005 in the six months ended June 30, 2015 was primarily due to purchases of U.S. Treasury Bills and Certificates of Deposit totaling \$4,745,714 and purchases of property and equipment totaling \$212,679 as we built out our lab during the six month period ended June 30, 2015. There was no cash used in investing activities during the six months ended June 30, 2014.

### ***Cash Flows from Financing Activities***

Net cash provided by financing activities in the six months ended June 30, 2015 and 2014 was \$12,973,221 and \$2,511,724, respectively. Cash provided by financing activities of \$12,973,221 in the six months ended June 30, 2015 was primarily due to the completion of our IPO. We sold 11,250,000 units in the IPO at a price of \$1.00 per unit, providing net proceeds of \$10,253,484, net of agents' commissions and expenses. Concurrently with the IPO, we also completed a previously-subscribed private placement of an additional 2,700,000 units for gross proceeds of \$2,700,000. Cash provided by financing activities of \$2,511,724 in the six months ended June 30, 2014 consisted of \$2,540,079 in net proceeds from the issuance of Series B Preferred Stock which was offset by \$28,355 in deferred offering costs associated with our initial public offering.

### ***Contractual Obligations***

In February 2015, we entered into a lease agreement for a new and expanded laboratory facility. The laboratory space is leased on a month-to-month basis and is part of a shared facility in Menlo Park, California.

#### **Item 4. Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, we conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of the end of the period covered by this report that our disclosure controls and procedures were not effective due to a material weakness. The material weakness relates to our having one employee assigned to positions that involve processing financial information, resulting in a lack of segregation of duties so that all journal entries and account reconciliations are reviewed by someone other than the preparer, heightening the risk of error or fraud. As our transactions increase, management will determine whether it is appropriate to hire additional financial staff. If we are unable to remediate the material weakness, or other control deficiencies are identified, we may not be able to report our financial results accurately, prevent fraud or file our periodic reports as a public company in a timely manner.

#### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the three month period ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

We may from time to time be party to litigation and subject to claims incident to the ordinary course of business. As we grow and gain prominence in the marketplace we may become party to an increasing number of litigation matters and claims. The outcome of litigation and claims cannot be predicted with certainty, and the resolution of these matters could materially affect our future results of operations, cash flows or financial position. We are not currently a party to any legal proceedings.

### **Item 2. Unregistered Sale of Equity Securities and Use of Proceeds**

None.

#### ***Use of Proceeds from Registered Securities***

There has been no material change in the planned use of proceeds from our IPO as described in our final prospectus filed with the SEC on December 16, 2014 pursuant to Rule 424(b). During the three months ended June 30, 2015, we have used proceeds from our IPO for research and development, working capital and general corporate purposes as described herein under “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

### **Item 3. Defaults Upon Senior Securities**

None.

### **Item 4. Mine Safety Disclosures**

None.

### **Item 5. Other Information**

None.

**Item 6. Exhibits**

Exhibit Number	Description
